

# WELLNESS ROOM

Our Wellness Room is mainly characterised by the nearly total absence of structural barriers, making of it the perfect location for intimate guests. The core and main attraction of the Wellness Room is the bathroom: a wide open area including steam bath and infrared sauna both with chromo, aroma and music therapy, emotional shower, whirlpool bathtub and Kinesis Machine signed by Technogym. The Wellness Room is located on the second floor, on the side part of the Romeo hotel.
